The screenshot shows the MyeLC website interface. At the top, there is a navigation bar with links for Home, FAQ, Contact Us, and Sitemap, along with a search bar and a language selector (中文 | Login). Below the navigation bar, the MyeLC logo is displayed, followed by the tagline "We are your preferred training partner".

The main content area is divided into several sections:

- About Us:** Classroom-based Program, e-Learning Program, Resources Bank.
- My e-Alert:** A notification area showing a date (2013.09.12), weather (25°C 97%), and a red alert icon.
- Hello User:** A personalized greeting with a cartoon character.
- My Enrollment Status:** A table showing enrollment status for various programs, including "HA Guidelines on the management of SARS", "Use of vasoactive drugs", and "Principles of mechanical ventilation".
- My Training Calendar:** A calendar for September 2013 showing training dates and status.
- Classroom Prog. Highlights:** A list of highlights for classroom programs, including "HA Guidelines on the management of SARS", "Use of vasoactive drugs", and "Principles of mechanical ventilation".
- e-Learning Prog. Highlights:** A list of highlights for e-learning programs, including "HA Guidelines on the management of SARS", "Use of vasoactive drugs", and "Principles of mechanical ventilation".
- My Training Records:** A list of training records, including "HA Guidelines on the management of SARS", "Use of vasoactive drugs", and "Principles of mechanical ventilation".
- My Staff:** A list of staff members, including Adam Chan, John Woo, Amy Leung, Suki Wong, and Sammy Tong.
- My Upcoming Program:** A list of upcoming programs, including "Use of vasoactive drugs", "Assess critically ill patients in ICU", "Mechanical ventilation", "Basic concept of ECG", and "Respiratory monitoring".
- Video Gallery:** A gallery of videos, including "HA Guidelines on the management of SARS Use of vasoactive drugs".
- My Bookmarks:** A list of bookmarks, including "HA Guidelines on the management of SARS Respiratory monitoring: Arterial Blood Gas Interpretation" and "Use of vasoactive drugs Assessing critically ill patients in ICU".
